AECOM consortium awarded US\$17.6-million contract for India's Hyderabad Metro Rail project

Public-private partnership model being used to deliver three high-density rail corridors

LOS ANGELES (Feb. 24, 2011) — AECOM Technology Corporation (NYSE: ACM), a leading provider of professional technical and management support services for government and commercial clients around the world, announced today that it has been awarded a five-year, US\$17.6-million planning and design contract for Phase I services of India's Hyderabad Metro Rail project.

For the Public-Private Partnership (PPP) project, which uses a design, build, finance, operate and transfer model, AECOM is serving as owner's engineer and will provide overall planning and conceptual design of the systems; design review, system assurance and system integration; as well as interface management, including Inspection, testing and commissioning, of the project. The project covers construction, operation and maintenance of three high-traffic-density metro rail corridors consisting of 66 stations and about 45 miles of elevated rail viaduct in the city of Hyderabad, the capital of Andhra Pradesh state.

AECOM, serving in the consortium's lead role, has won this project with consortium partner Feedback Ventures Private Limited from the concessionaire, L&T Metro Rail (Hyderabad) Limited, which is part of Larsen & Toubro Limited.

"AECOM is proud to play a role in the enhancement of India's transportation infrastructure and to see such an undertaking being delivered through the PPP model," said AECOM President and Chief Executive Officer John M. Dionisio.

The Hyderabad Metro Rail project concession was granted by the Government of Andhra Pradesh. The Metro Rail is expected to commence operation during 2016.

About AECOM

AECOM (NYSE: ACM) is a global provider of professional technical and management support services to a broad range of markets, including transportation, facilities, environmental, energy, water and government.
